FORFEITURE NOTICE.

Delamar, Nevada, Feb. 20th, 1909.
To Maurice Crowell, his heirs, executors, administrators and assigns:
You are hereby notified that I have expended during the year 1908 one hundred dollars worth of labor and improvements upon each of the following described lode mining claims, situate about one-half mile south of Delamar, in the Ferguson Mining District, County of Lincoln, State of Nevada, viz.: the Sunshine, Pioneer, Gold Reserve and Last Chance lode mining claims, the same being contiguous, and constituting one compact area of mining ground, in order to hold said claims under the provisions of Section 2324 of the Revised Statutes of the United States, and the amendment thereto, approved January 22nd, 1880, concerning annual labor on mining claims, being the amount required to hold said lode mining claims for the period and year ending December 31st, 1908, and if within ninety days after the publication thereof you fail and refuse to contribute your proportion of such expenditure as a co-owner, namely sixty-six dollars and sixty-six cents (\$66.66) for each claim, being two-thirds of the amount expended on each claim, your interest in said claims will become the property of the subscriber, your co-owner, who has made the required expenditure by the terms of said section.

Date of first publication, Feb. 27th, 1909.
Date of last publication, May 19th, 1909.

Notice to Mine Owners.

Notice is hereby given, that the tax on proceeds of mines, for the quarter ending March 31, A. D., 1909, is now due and payable at the office of the County Assessor at Ploche, Lincoln County, Nevada. A strict compliance of the law is requested.

BULLION TAX REPORT.

stated that they placed an arbitrary assessment upon an output of about \$8,000. The evidence showing the facts as stated herein are of record in this office and open to your call or inspection by any citizen. This matter is gone into to some length in my report to the officials of Humboldt county. Your attention is respectfully called to the report to Humboldt county which is attached hereto.

"This is not a matter which the officers of Humboldt county can claim ignorance, for, as already stated, their attention was called to the violation of the law in two official reports from this office. I am placing the matter before you for consideration and to carry out such instructions as you may deem necessary.

"Lander county showed no ore production during the last year. This however, is not discouraging, for not in many years has so much development work been in progress in Lander county as has been during the year of 1908. Indications for the present year are encouraging for bullion taxes there for the assessor and other officials of that county are co-operating in every way to insure returns and revenue to both the state and county.

SHOWING IN LINCOLN.

"Lincoln county showed but little improvement in the amount of bullion tax collected for the last quarter of 1908. The officers are apparently using every effort to secure better results and have succeeded in getting statements and securing bullion taxes from leasers operating in that county. Your attention is respectfully called to the report of this office to the officials of Lincoln county. Three leasers operating in Lincoln county with every crude method at their command produced a total of \$8,000. On this output they paid a tax of \$34.41. On the other hand, the Bamberger Delamar company, with every facility for the economical handling and treating of its ore, had a total output of more than \$134,000. This company, on this immense rich output paid a total tax of \$28.40. This same ratio, or greater, prevailed in regard to this company throughout the entire year in Lincoln county, which showed a total output of close to \$1,000,000. The total tax collected in Lincoln county for the year was \$144.23. It is to be hoped that during the present year a method will be devised whereby this glaring and shameful condition will be remedied and that persons or corporations now receiving every encouragement and protection from a liberal government will be compelled to pay at least a small cost of conducting that government.

LYON TO THE FRONT.

"Conditions in Lyon county relating to the bullion tax were found in good condition, so far as caring for this revenue source is concerned. The last quarter showed an amount of tax nearly four times as great as during the first three months of 1908. Though this total amount is not great it in a manner illustrates the manner in which interest in the bullion tax sources has increased during the year.

"Nye county, the figures show, made the best record of any of the counties of Nevada in the matter of the bullion tax. It takes first rank in the total amount of bullion produced as well as the number of tons. As to the bullion tax it ranks first for the last quarter of 1908, passing Esmeralda county by a good margin.

"I do not attribute this so much to the amount of ore produced as to the methods used by the officials of Nye county in caring for this revenue source. Investigation showed that the assessor of Nye county is more energetic, and careful if possible, in the collection of this tax than any other official in this state.

"Ormsby county has as yet made no showing in the bullion tax. Neither has Douglas county.

"Storey county has made an excellent showing for the entire year. This office found that the officials of Storey county are giving this work very careful attention and they are getting all the revenue possible from this source.

"Washoe county has made a start in the way of a report on the condition of bullion tax sources, with the result that it is placed on the list of bullion tax payers. The amount is small, it is admitted, but it is a start nevertheless and it is to be hoped that it means bigger returns during the present year.

"It is pleasing to report that White Pine county, for the first time in many years, is now in the list of bullion tax payers of Nevada, with every hope that it will remain there and become larger each quarter. During last year it showed an ore production of more than \$800,000, while as a bullion tax payer it ranks in third place for the last quarter of 1908.

"Attached hereto is a tabulated statement showing by counties the output of the mines, the value, the expense and the bullion tax paid during the year ending December 31, 1908. This statement is hereby made a portion of this report."

SUMMARY OF MINERAL PRODUCTION AND BULLION TAX OF NEVADA—1908.

Following is a summary showing the mineral production of Nevada, together with the bullion tax collected during each of the four quarters, for the year ending December 31, 1908:

QUARTER ENDING	Ton.	Total Val.	Total Ex.	Taxes
March 31	161,986	\$ 2,306,921.52	\$ 1,659,175.07	\$ 21,200.47

December 31	412,482	4,359,486.20	4,058,118.81	17,316.58
Total for year	1,165,625	\$14,373,545.36	\$12,260,002.57	\$101,656.22

EXPENSES.

Statement showing money expended in carrying out work of State License and Bullion Tax Agent during quarter ending March 31, 1909.
January, 1908; salary \$166.35
February, 1908; salary 194.85
February, 1908; expense 44.88
March, 1908; salary 208.40
March, 1908; expense 111.95
Total for quarter ending March 31, 1908 \$726.43

"License sources in the state were found in good condition so far as examined during the past quarter. For the quarter ending March 31, 1909, it was not deemed necessary to secure at this time a detailed statement. In several counties the license accounts were examined, license sources were investigated and so far as this office was able to learn the officers are giving this revenue source careful attention.

"The custom of printing, and circulating the reports from this office is, in my opinion, a good one and should be continued. It entails some additional expense, but in the opinion of this office the results to be derived in increased revenue and greater attention on the part of the officers to the revenue sources will far exceed the cost. The first printed report from this office was distributed instances to different portions of the United States and Europe. When distributed in the state they afford the taxpayers an opportunity to note where their license and bullion tax revenue is being derived and to call attention to errors if any exist. To the non resident they afford much of valuable interest so far as statistics are concerned. For these reasons I would recommend that the custom of printing and circulating the quarterly and annual reports from this office be continued.

Beyond the recommendations already made in this report this office has no additional suggestions to offer. Respectfully submitted,
JAMES F. HALEY,
State Bullion and Tax Agent.

NEW SUPERINTENDENT FOR AGRICULTURAL FARM.

Roy M. Flicher has been appointed superintendent of the State agricultural station at Logan. Mr. Flicher is a graduate of the University of California and comes well recommended. He has had a great deal of experience in preparing fruits and other farm products for exhibition and undoubtedly those who visit the state fair next fall will have opportunity to see some of the results of his work.

The board of control of the Logan institution now consists of P. Beveridge Kennedy of Reno, chairman; Ed Bunker, Jr. and E. K. Syphus.

New Map of Ploche.

The new map of Ploche mining districts, compiled by Engineer A. D. Knowlton, has been issued from the press and it is a "dandy."
